

# PCOS 2017 Best Poster Award

## Fumi Nakamura

Graduate School of Science and Technology, Keio University

On behalf of the Society of Phase Change Oriented Science  
We are pleased to grant a best poster award of PCOS 2017 to you.

**Current driven optical gate switch using a  $\text{Ge}_2\text{Sb}_2\text{Te}_5$   
thin film and an indium tin oxide heater**

Fumi Nakamura<sup>1</sup>, Kentaro Kato<sup>1</sup>, Masashi Kuwahara<sup>2</sup>, Hitoshi Kawashima<sup>2</sup>,  
Tohru Tsuruoka<sup>3</sup>, and Hiroyuki Tsuda<sup>1</sup>

<sup>1</sup> Graduate School of Science and Technology, Keio University

<sup>2</sup> National Institute of Advanced Industrial Science and Technology

<sup>3</sup> International Center for Materials Nanoarchitectonics, National Institute for Materials Science

Presented on November 16-17, 2017 in Atami (Shizuoka, Japan)  
at the 29<sup>th</sup> Symposium on Phase Change Oriented Science

PCOS General Chair  
PCOS 2017 Committee
